

FOR BILIOUSNESS TAKE A CALOTAB

The Nameless Calomel Tablet
That Does the Work Without
the Slightest Unpleasantness.

Ask your doctor and he will tell you that calomel is the best and only sure remedy for a lazy liver, biliousness, indigestion and constipation. Now that all of its unpleasant qualities have been removed, calomel, in the form of Calotabs, is the easiest and most pleasant of all laxatives to take. One tablet at bedtime, with a swallow of water—that's all. No taste, no griping nor nausea. In the morning you feel simply fine—live, wide awake, energetic, strong and with a hearty appetite for breakfast. Eat what you want and go about your work—no danger.

Calotabs are sold only in original sealed packages, price thirty-five cents. So sure and delightful that your druggist offers you money back as a guarantee that you will be perfectly delighted with Calotabs.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia
To Overcome Trouble. Caused
by Fermenting Food and
Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and acids, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead go from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body. Bismarck Magnesia neutralizes the excess acid and prevents its formation and there is no source of pain. Bismarck Magnesia (the powder or tablet form—never liquid or milk) is harmless to the stomach and is the best and most effective of all remedies for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

NUXATED IRON
ENERGY STRENGTH VITALITY
HEALTH POWER
DURANCE

Nuxated Iron increases strength and endurance of delicate persons, run-down people in two weeks' time in many instances. It has been used and endorsed by such men as former United States Senator and Vice-Presidential Nominee, Charles A. Townsend; U. S. Commissioner of Immigration Hon. Anthony Caminetti; also United States Judge G. W. Atkinson of the Court of Claims of Washington, and others. Ask your doctor or druggist about it.

For Mosquito Bites

From time immemorial certain aromatic oils have been rubbed on the skin to keep mosquitoes away. For equally long periods alkalies have been applied to the bites to neutralize the poison of the stings. No one ever thought to combine the two—aromatic oils and alkalies. The result is the famous "Poison Powder," the great germ destroyer, is aromatic and alkaline in just the proportion best suited to prevent and destroy the bites and stings of mosquitoes and all insects. Excellent also for Poison Oak, Prickly Heat, etc. If you want a sample of this powder, free, write to J. S. Tyree, Chemist, Inc., Washington, D. C. For sale in three sizes—small, medium and large—by all drug and department stores.

Remember the name—TYREE—accept no other.

U. S. ENGINEERS TO MEET HERE JUNE 23

The American engineer having become of international interest, nationwide attention is now focused on the forthcoming public conference on "Business Training for Engineers and Engineering Training for Students of Business" to be held in Washington June 23-24 at the New Willard Hotel. The opening session will be called to order at 10 a. m. and men whose names are as well known in the farthest corners of the earth, through their scientific and engineering attainments, as in America, will have a part in the program.

The conference has been called by the Commissioner of Education, on behalf of a committee composed of prominent administrative professors in engineering and commerce, and representatives of national engineering societies. Four topics are to be discussed at the conference—Business Training for the Engineer, Significance of the War Experience for Engineering Education, and Training of the Engineer for Overseas Engineering Projects.

Prominent Men To Speak.
Among the speakers are: Spencer Miller, vice president, Listerwood Manufacturing Company; E. F. Durbul, president, Pyro Clay Products Company; Charles R. Mann, chairman of committee on Education and special training of the War Department; Dean Anson Marston, of the division of engineering of Iowa State College; Prof. Walter Rautenstrauch, Columbia University; Fred L. Davis, of the American International Company; W. W. Nichols, vice president of the Allis Chalmers Manufacturing Company; Jeremiah W. Jenks, of New York University; Maj. Gen. John F. Ryan, commanding Twenty-seventh Division of the United States army; Edward N. Hurley, chairman of United States Shipping Board, and others.

The purpose of this conference, says Dr. Swiggett, chairman of the conference committee, and under whose direction two preliminary conferences on this subject have been held, is to direct public attention at this time to the positive need in our country for an increasing supply of well-trained young engineers to enter upon business careers with promotion in the direction of industrial and commercial management.

In large scale industrial production and commercial enterprise, the man most helpful in eliminating waste of machinery, material and energy, and overcoming the present shocking percentage of loss in these three things, is the man whose training represents a combination of the essentials of engineering and knowledge of the fundamentals of business practice.

There is some objection, says Dr. Swiggett, to the use of the term "commercial engineer" for this new type of trained engineer, but our committee has discovered through two preliminary private conferences that many universities and colleges have already felt the demand from industry and commerce, and are endeavoring in some way to meet it with the coming school year.

The character of a symposium, and will serve as a clearing house for the exchange of ideas leading to common thinking and common action in respect to the object and program of the conference.

ROCKVILLE NEWS
Dividing Line Between Prince George's and Montgomery Counties Is In Dispute.
(Special to The Washington Times.)
ROCKVILLE, Md., June 20.—On a serious charge preferred by Virgie Smith, colored, aged eleven years, George Johnson, also colored, was held for the action of the November grand jury by Judge W. Frank Galtier in the police court here yesterday. Being unable to furnish \$500 bail, he was committed to jail.

A license has been issued by the clerk of the circuit court here for the marriage of Miss Mary Campbell Walker and Frank Glatfelter, both of Columbia, Pa.
Funeral services for Mrs. Willie Howard Haines, wife of Simon J. Haines, who died Monday evening following an illness of only a few hours, were held yesterday afternoon at the family residence, burial being in the cemetery at Laytonsville. Mrs. Haines was a daughter of William Howard, of Dayton, Howard county. She is survived by her husband and one child.

H. Edison Rogers, of Takoma Park, has written to the county commissioners claiming that the dividing line between this and Prince George's county is 250 feet south of where it is now indicated by the map of Takoma Park. He states in his letter that the true line has been run by E. Norman Jackson, of Takoma, and shows that there is now improperly included in Prince George's county ten or twelve houses, many lots, and many voters.

According to Mr. Rogers, the commissioners for Prince George's county have had the matter called to their attention and have expressed a willingness to appoint some one to act in connection with an appointee of the county commissioners for this county to establish and report upon the correct line between the two counties. The county commissioners for this county will, it is understood, give the matter their prompt attention.

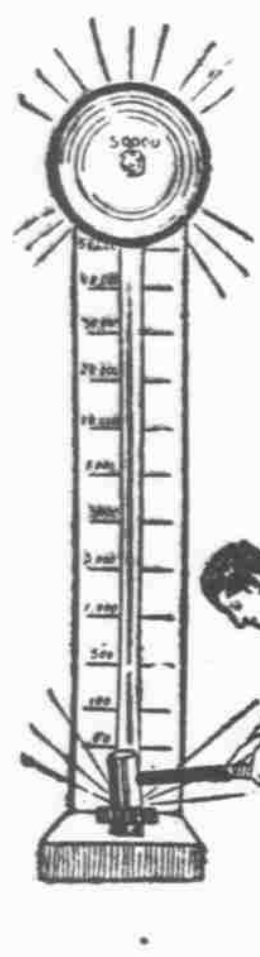

**SHAD BAKE COMMITTEE
PLANS WATER EXCURSION**
The 1919 shad bake committee of the Board of Trade will hold an outing of its own tomorrow and Sunday to the form of a trip by water from Baltimore to Washington.

This is an annual custom, and twenty-five of the thirty members of the committee in 1918 have signified their intention of making the trip. Fred White was chairman of the committee on arrangements for the shad bake, and the excursion tomorrow is in charge of C. J. Waters.

The party will leave Washington over the Washington, Baltimore and Annapolis electric line tomorrow afternoon and take the evening boat from Baltimore.

LIFT ANOTHER EXPORT BAN.
Pharmaceutical products and medical accessories may now be exported to Germany, the War Trade Board announced today.

A JUNE DRIVE FOR 50,000 NEW CUSTOMERS
